Title: Need to set up a railway terminus at Vasai Railway Station in Maharashtra.

SHRI CHINTAMAN NAVASHA WANGA (PALGHAR): Western Railway, Konkan Railway and Eastern railway are going through my Lok Sabha Constituency. Suburban Railway from Churchgate to Dahanu Road is also going through my constituency. All long route trains going to southern India and southern India to Northern India are stopping at Vasai station. Trains going to Western India and Eastern India especially Pune side are also stopping at Vasai station. Vasai-Diva Railway line is also going through Vasai station and trains from Dahanu Road to Panvel are running through Vasai station. At Vasai station there should be railway terminus and due to stoppage of long route trains upgradation and mobilisation is also required. I, therefore, request the Government to give status of railway terminus and start work of upgradation and modernisation of Vasai Railway station on Western Railway immediately.
